## TECHNICAL SKILLS

Programming Languages  
Web Development  
Data & Databases

AI & Quality

Development Tools

Python, C, C++, JavaScript, TypeScript, SQL, Dart  
React, Next.js, FastAPI, REST APIs, Flutter, HTML/CSS  
PostgreSQL, SQLite, SQLAlchemy, Pandas, NumPy, ETL, Data  
Engineering, Data Validation  
Artificial Intelligence, Large Language Models, Prompt Engineering,  
Software Testing, Pytest  
Git/GitHub, Docker, Docker Compose, GitHub Actions, CI/CD

## EDUCATION

Seneca Polytechnic, Toronto, ON

May 2024 – April 2027

Ontario College Advanced Diploma, Computer Programming & Analysis

**Relevant Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Web Development, Database Management, Software Testing, Systems Programming, Mobile Application Development

## EXPERIENCE

Farm Boy Inc., Toronto, ON

July 2026 – Present

Customer Service Representative

- Provide professional customer service by assisting customers with questions, product information, and general inquiries while maintaining accuracy and professionalism.
- Handle customer needs efficiently in a fast-paced environment, adapting to changing priorities and supporting team operations.

Seneca Polytechnic, Toronto, ON

May 2025 – Present

Open House Ambassador

- Represent Seneca during open house activities by welcoming prospective students and guests and communicating campus and program information.
- Support event operations and communicate with visitors from diverse backgrounds, strengthening public-facing communication and teamwork.

Walmart Canada, Keswick, ON

November 2024 – July 2026

Overnight Associate

- Maintained accuracy, organization, and attention to detail while completing overnight retail and inventory responsibilities in a fast-paced environment.
- Collaborated with team members to complete operational priorities efficiently while adapting to changing deadlines and workload.

Upwork, Toronto, ON

June 2024 – September 2025

Freelance Software Developer

- Developed software solutions based on client requirements, translating project needs into functional and maintainable applications through independent development.
- Designed, implemented, tested, and debugged application features while managing deliverables and incorporating client feedback throughout iterative development.
- Applied problem solving, version control, testing, and debugging practices to deliver software aligned with client expectations.

## PROJECTS

FinGuard — Transaction Risk Monitoring Platform

Next.js, TypeScript, FastAPI, PostgreSQL, Redis, Docker | [GitHub](#)

- Developed a full-stack transaction risk monitoring platform with REST APIs, transaction-risk workflows, database persistence, and containerized development.

ControlBridge — Enterprise Data Reconciliation & Risk Reporting Platform

Python, Pandas, SQLAlchemy, ETL, Pytest, Docker | [GitHub](#)

- Built a data-controls platform that validates transactions, reconciles source systems, runs ETL into a relational warehouse, detects exceptions, and generates automated reports; added testing and CI.

ShadowTrace — Identity & Security Platform

Python, FastAPI, PostgreSQL, SQLAlchemy, Docker | [GitHub](#)

- Built an authentication-risk platform implementing explainable risk scoring for impossible travel, brute-force behavior, new devices, unusual login hours, and high-risk IPs, with REST APIs and alerts.

RepoDoctor — AI-Powered Repository Health Analyzer

Python, FastAPI, LLMs, GitHub, Docker | [GitHub](#)

- Developed a repository analysis tool with deterministic health scoring, security/code-quality scanning, GitHub/local repository support, optional AI summaries, automated tests, and CI.

## VOLUNTEER EXPERIENCE

Seneca Disruptive Technologies Club, Toronto, ON

September 2024 – Present

Treasurer

- Support financial administration, budgeting, event planning, and technology-focused initiatives while collaborating with club leadership and members.

Seneca Polytechnic, Toronto, ON

September 2024 – Present

Peer Mentor

- Support new students with transition guidance, encouragement, practical information, and connections to campus resources.
